Concept Mapping

192425176

COI - ATQ

ITA0501 - Computer Vision
Roll no: - 35

- 1) Concept map: Image Acquisition Conditions
→ processing → Application performance.

Image Acquisition Conditions

Illumination Sensor Environment Acquisition Settings

Image Quality Attributes

Resolution Contrast Noise Color Accuracy

Image Processing Techniques

Pre-processing Feature extraction Recognition

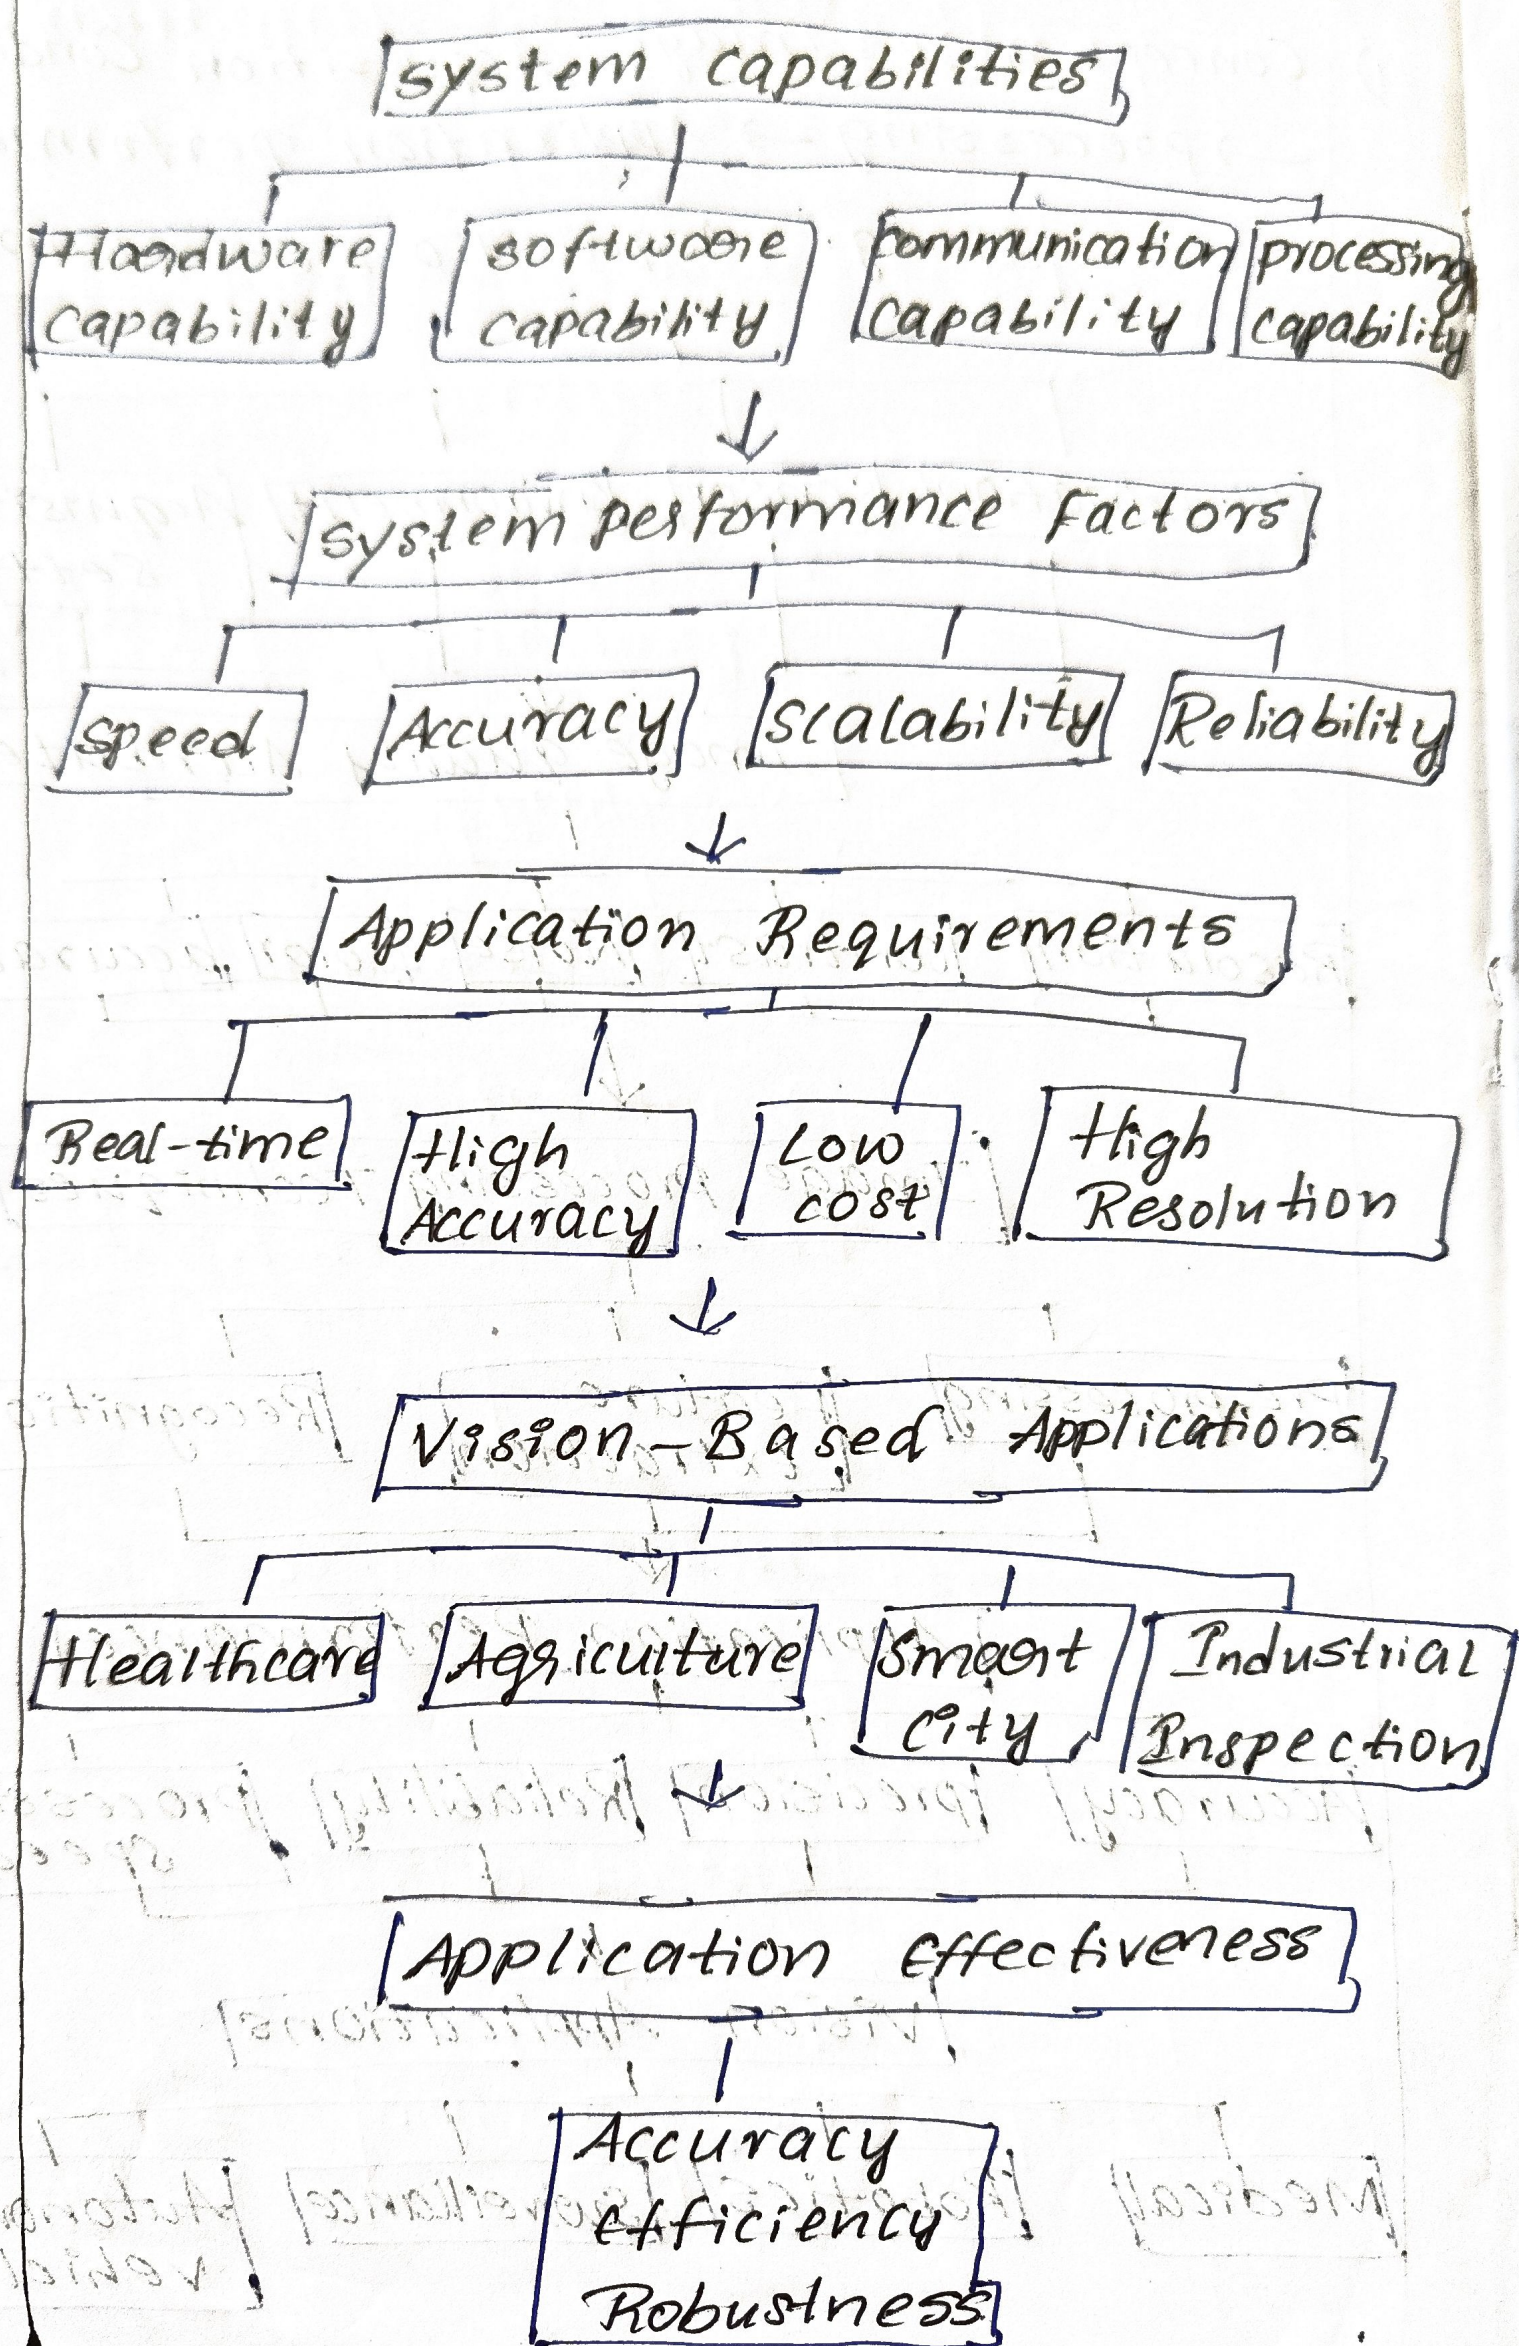

Application Performance

Accuracy Precision Reliability Processing speed

Vision Applications

Medical Robotics Surveillance Autonomous vehicles.

2) Concept Map : system capabilities →
vision based Applications.

3) Concept Map: Digital Image formation
